SUMMARY

UX designer who turns ambiguous, high-stakes problems into systems that scale — not just screens that ship. architected a 20+ component design system now running an entire enterprise platform end-to-end, from documentation through developer handoff. partners closely with product, engineering, and research to translate messy real-world workflows into elegant, buildable experiences — and owns the process from discovery through launch with minimal oversight. **4+** years designing for web and enterprise platforms where clarity, scale, and cross-functional trust all matter equally.

EDUCATION

Bachelor of Engineering | Jabalpur **Aug 2015 - Dec 2019**
Shri Ram Institute of Technology — 7.6 CGPA

WORK EXPERIENCE

UX Designer | Ensylon | Jaipur **Sep 2025 - Present**

- Established a scalable design system of 20+ reusable components, reducing design-to-development handoff time by 40% and creating a single source of truth across the enterprise HR platform.
- Simplified attendance and leave-management workflows, decreasing user-reported friction by 60% through iterative usability testing and validation with HR end users.
- Accelerated product delivery cycles by 7 days by serving as the primary bridge between product managers and engineers, owning requirements clarification, design execution, and release QA.
- Identified 4 workflow automation opportunities that informed roadmap priorities by facilitating structured stakeholder research sessions and uncovering operational inefficiencies.

UX Designer | Cognitive Stars | Jaipur **Jul 2024 - Sep 2025**

- Enabled faster business decision-making by 53% through the design of interactive Power BI dashboards across 12+ client engagements.
- Increased client approval rates by 12% by leading brand identity and website design initiatives from concept exploration through final delivery.
- Influenced product direction across 2 key projects by contributing user-centered design strategies during leadership planning and roadmap discussions.
- Strengthened brand visibility by 15% through end-to-end ownership of branding initiatives, ensuring consistency across multiple customer touchpoints.
- Improved customer engagement by 30% by designing high-impact marketing collateral that aligned business objectives with audience needs.

UI/UX Designer | Techcream Solutions | Bhopal **Apr 2022 - Jul 2024**

- Delivered 5 client-facing web products from discovery through developer handoff, reducing engineering rework by 17% through early collaboration and design validation.
- Reduced usability and accessibility issues by 20% by conducting regular testing cycles and addressing friction points before product release.
- Accelerated development timelines by 25% by translating designs directly into HTML, CSS, and Tailwind implementations, minimizing handoff dependencies.
- Increased user satisfaction scores by 40% through live usability testing, rapid iteration, and continuous incorporation of user feedback.

KEY PROJECTS

[Employee Portal](#) – Employee Self-Service, HR Operations, Workflow Automation, Enterprise UX
[Ensylon Design System](#) – Design Systems, 29+ Components, Design Tokens, Documentation
[Carwaalah](#) – Booking Platform, User Flows, Web Design
[YouTube Redesign](#) – UX Audit, Information Architecture, Usability Improvements

SKILLS

Research: User Interviews, Usability Testing, Journey Mapping, IA
Design: Wireframing, Prototyping, Visual Design, Design Systems
Tools: Figma, FigJam, Framer, Jira, Miro, Notion
Frontend: HTML5, CSS3, Tailwind CSS
